Focusing on the Importance of Learning:

- Talk Positively about the importance of education.
- Let your child see how much you enjoy and value learning.
- It is OK if you do not have all the answers to your child's questions, but it is important to show that you know how to find the answers.
- Learning builds confidence; and a child who is confident is more open to new opportunities to learn. •Copyright Educationworld.com

>>> Homework:

Homework provides practice, and it enables parents to know when a child is having difficulty with schoolwork. Parents can support a school's homework policy by...

- Providing a "homework area" that is well lit and free of distractions.
- Setting a daily "homework time." Some parents call it "schoolwork time: so kids know the "I have no homework" excuse won't work.
- Offering a snack or play break before homework or using it as a homework-completion incentive.

Student Led Conferences are next week!

We have our student led conferences next week! There is still time to sign up for a conference. Check your email from your teacher to sign up. Our student led conferences allow your child to share what they have learned and the goals they are making. Also, make sure you stop and see all of your child's teachers! We would love to share how your child is doing in all of their classes. If you can't make it, please reach out to your teacher and find time to connect. We are looking forward to seeing you!
